Course: Web-based GIS
(TKD1206)

Enterprise GIS dengan ArcGIS Online

Dany Laksono

Dept. of Geodetic Engineering, UGM

UNIVERSITAS GADJAH MADA

Enterprise GIS dengan ArcGIS Online

- Enterprise GIS dan Komputasi Awan
- Ekosistem ArcGIS Online/ArcGIS Enterprise
- Aplikasi (*Apps*) pada ArcGIS Online
- Membuat WebGIS dengan ArcGIS WebApp Builder

LOCALLY ROOTED, GLOBALLY RESPECTED

Enterprise GIS:

“The implementation of GIS infrastructure, processes and tools at scale within the context of an organization, shaped by the prevailing information technology patterns of the day.”

Peery, S. (2019). Enterprise GIS. The Geographic Information Science & Technology Body of Knowledge (2nd Quarter 2019 Edition), John P. Wilson (Ed.). DOI: 10.22224/gistbok/2019.2.7

GIS Berbasis Komputasi Awan

Laporan Lapangan:
Lampu jalan rusak

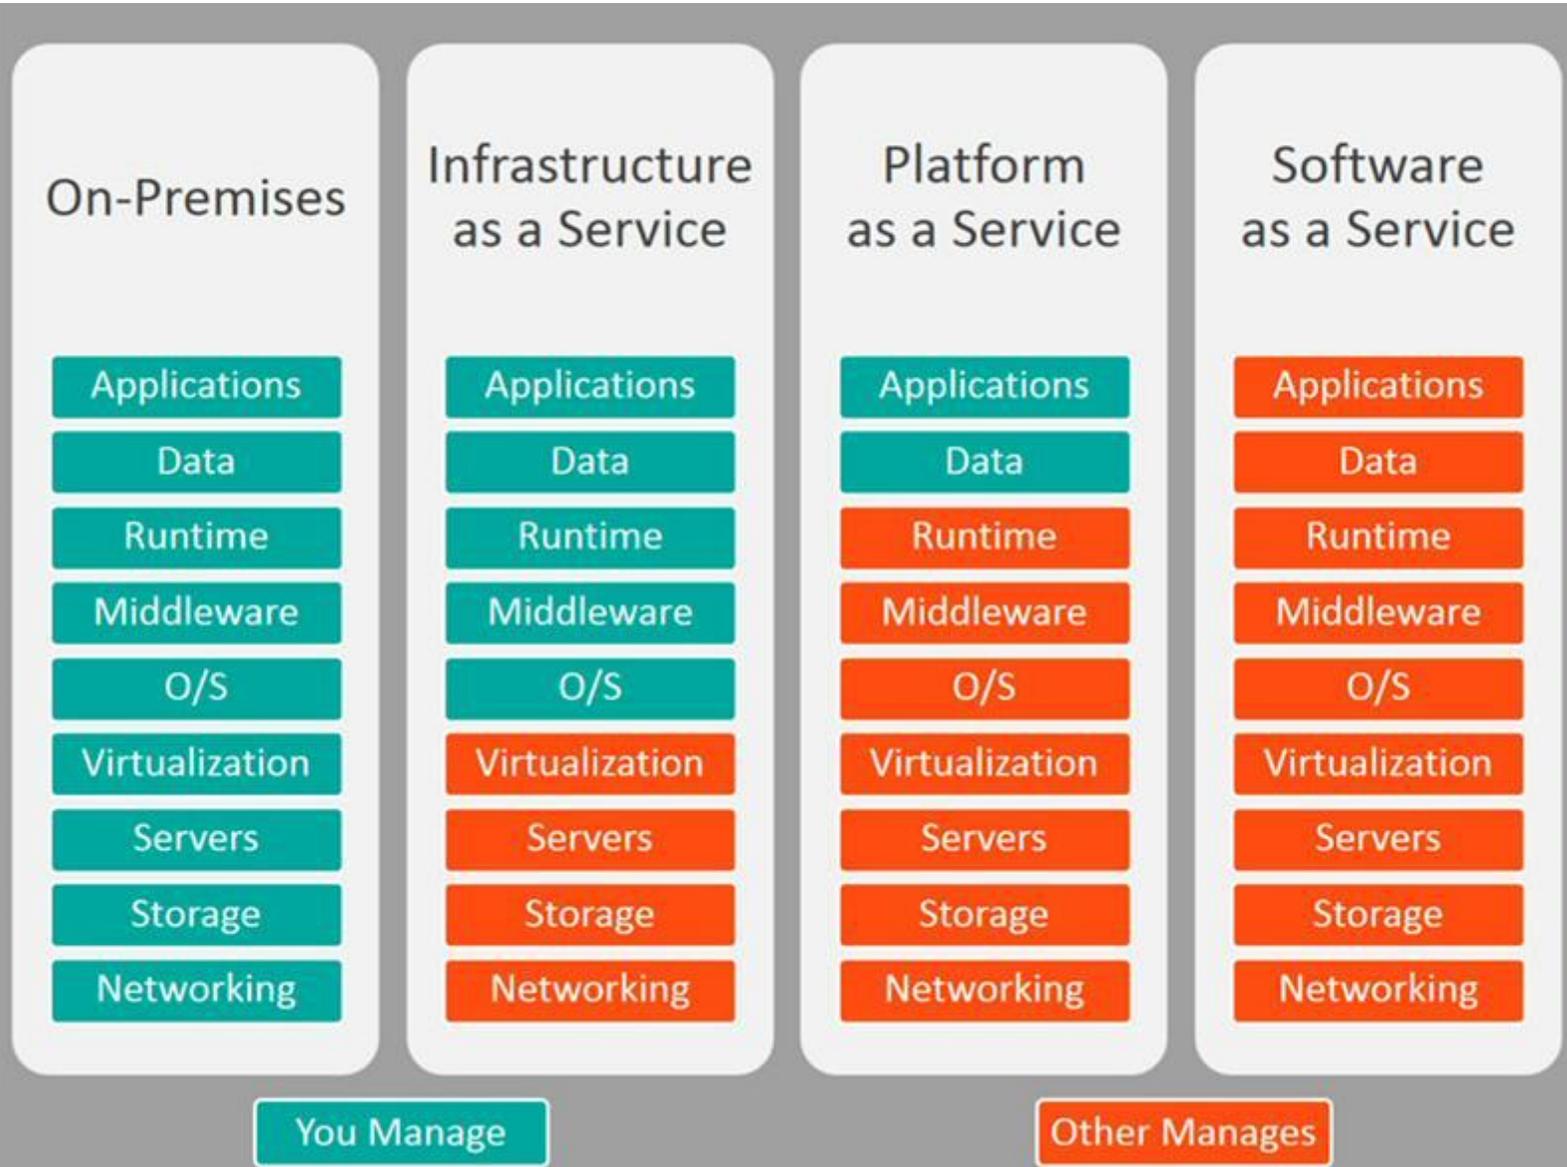

Analitik Visual:
Dashboard Lalu Lintas

Analisis spasial:
Tingkat Kecelakaan

Cloud Computing

IaaS:

Provider menyediakan seluruh infrastruktur yang dapat digunakan oleh developer untuk membangun aplikasi sesuai yang diinginkan.

Contoh: Amazon EC2

PaaS:

Provider menyediakan API untuk mengakses fungsi-fungsi mendasar dari sebuah aplikasi

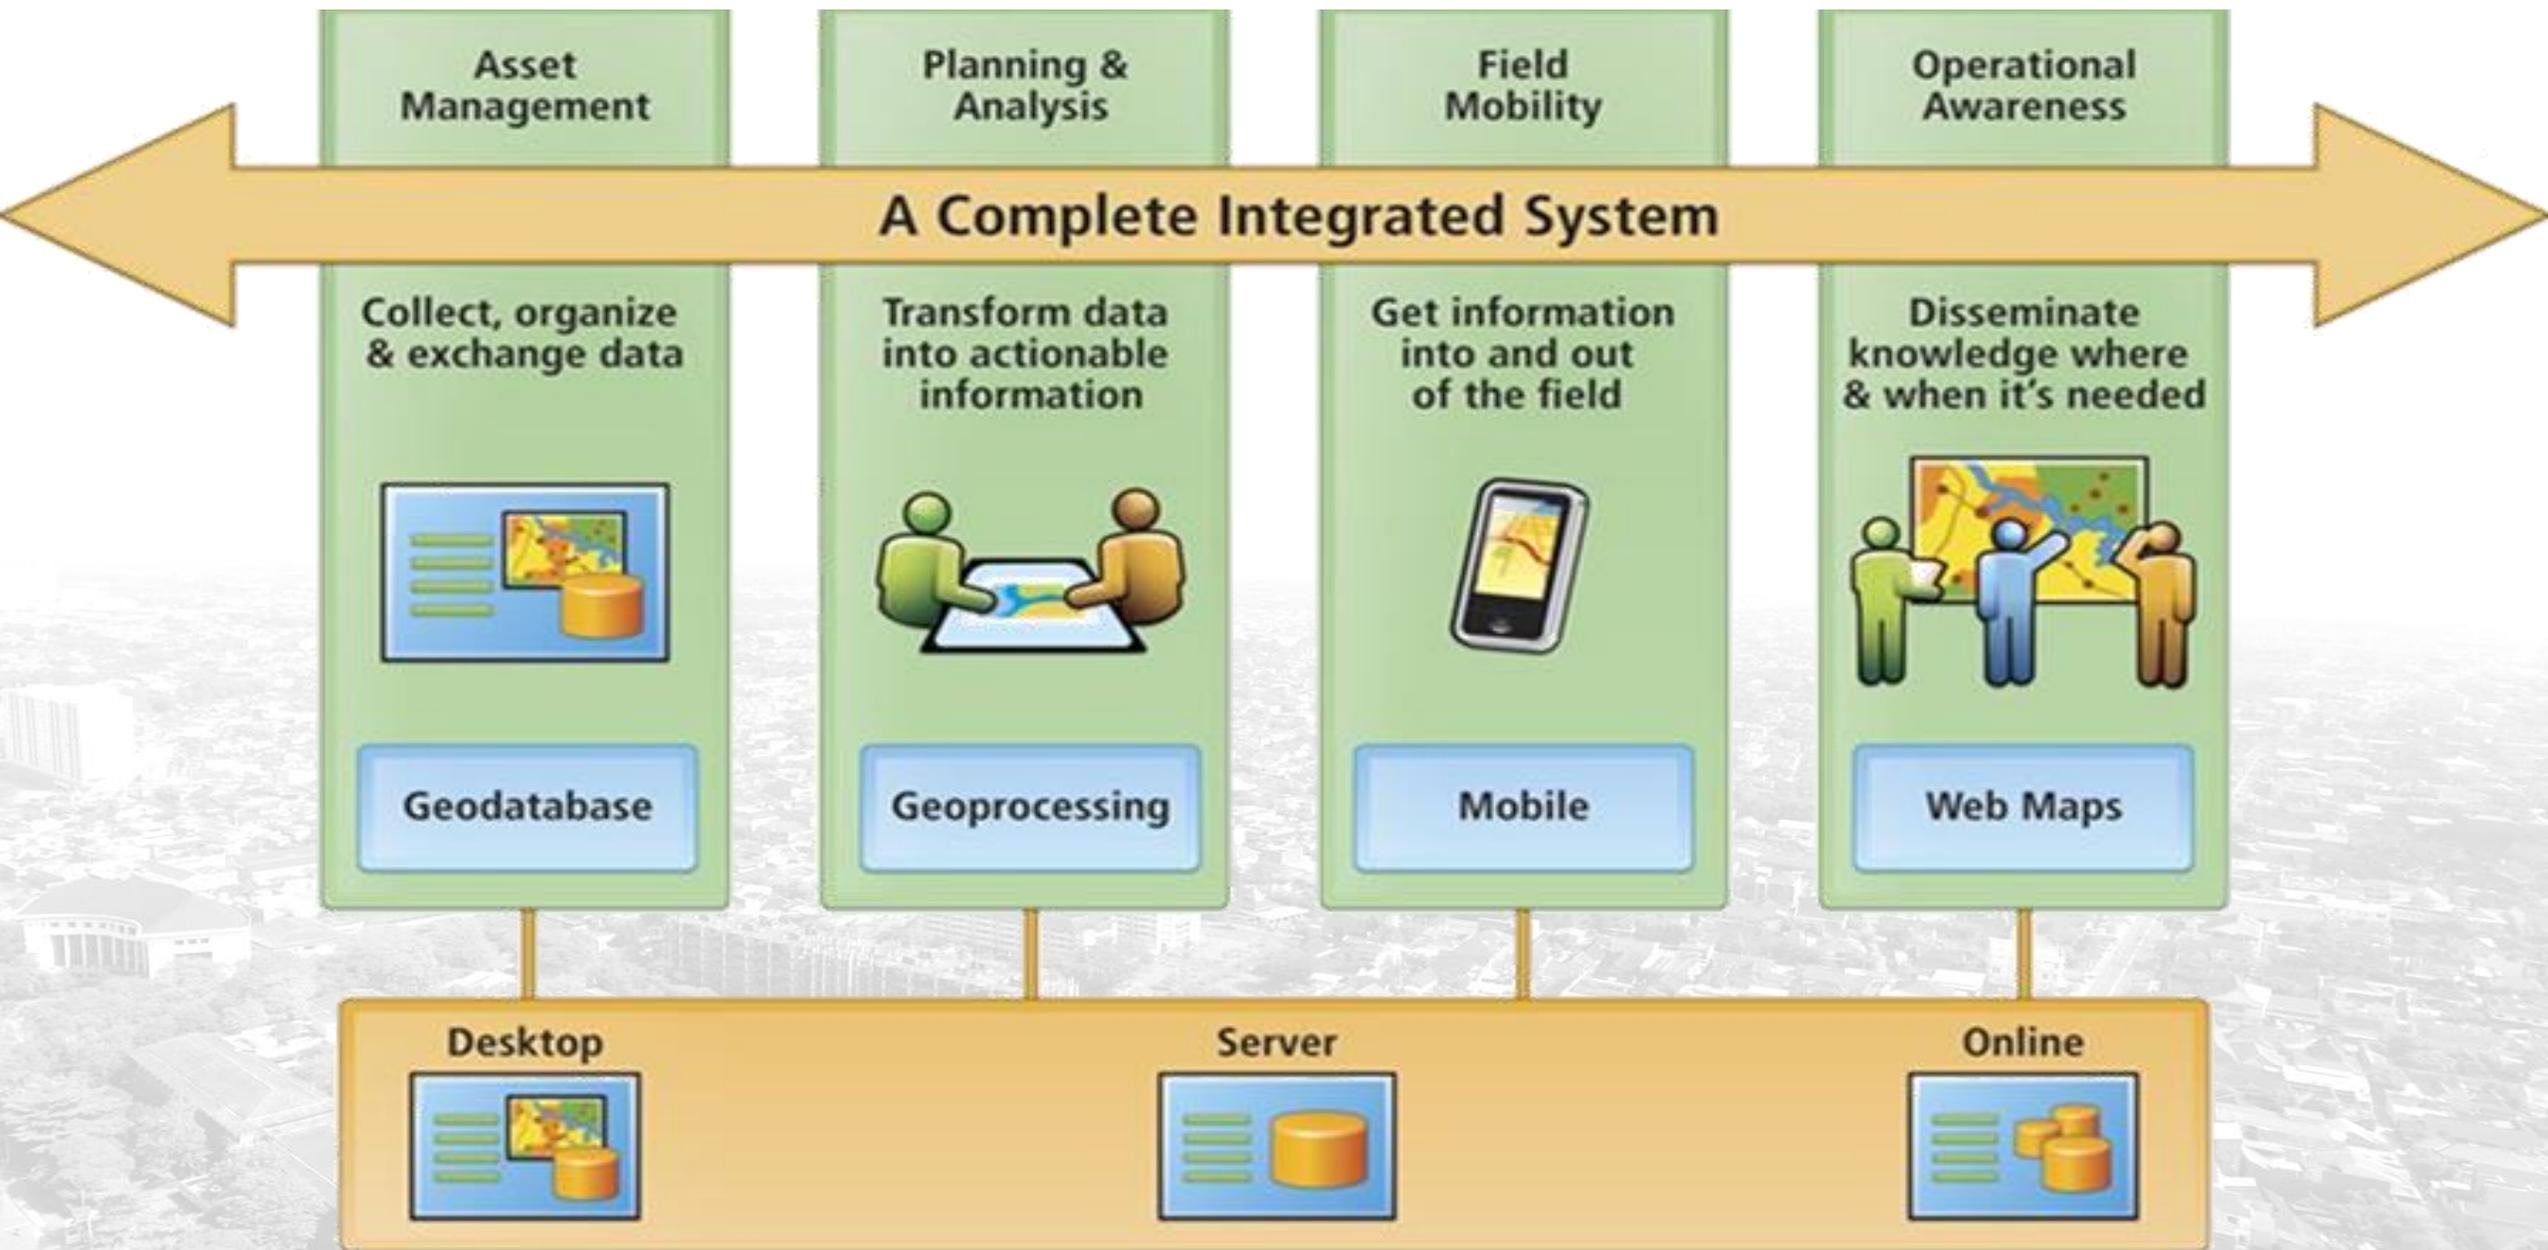

Contoh: Facebook App

SaaS:

Perangkat lunak seluruhnya disediakan oleh provider. Pengguna cukup memiliki akses internet untuk menggunakan aplikasi tersebut.

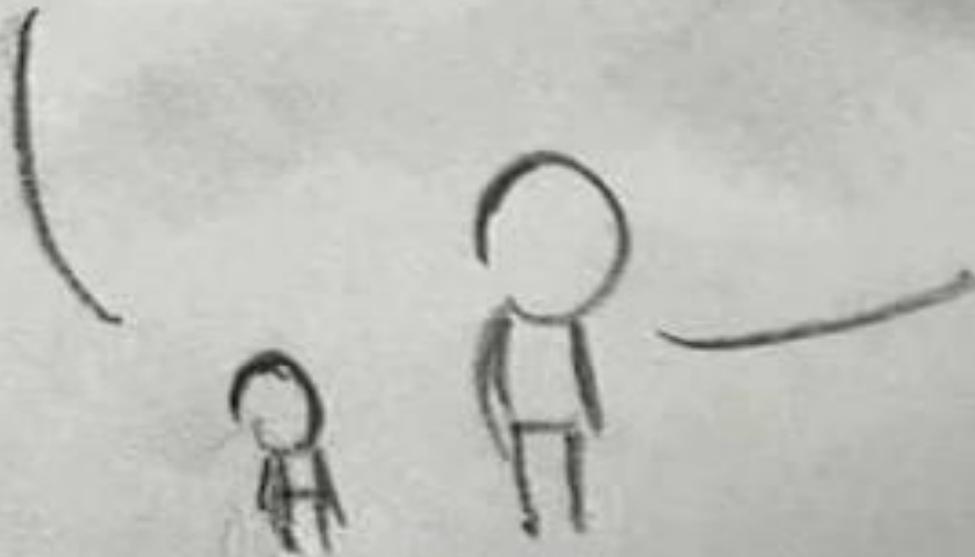

Contoh: Google Docs

ArcGIS Online is a cloud-based SaaS mapping and analysis solution.

Dengan beralih ke komputasi awan,
perusahaan akan menghemat biaya
infrastruktur; operasional dan *overhead*
cost

DADDY, WHAT ARE
CLOUDS MADE OF?

Enterprise GIS: ArcGIS Online

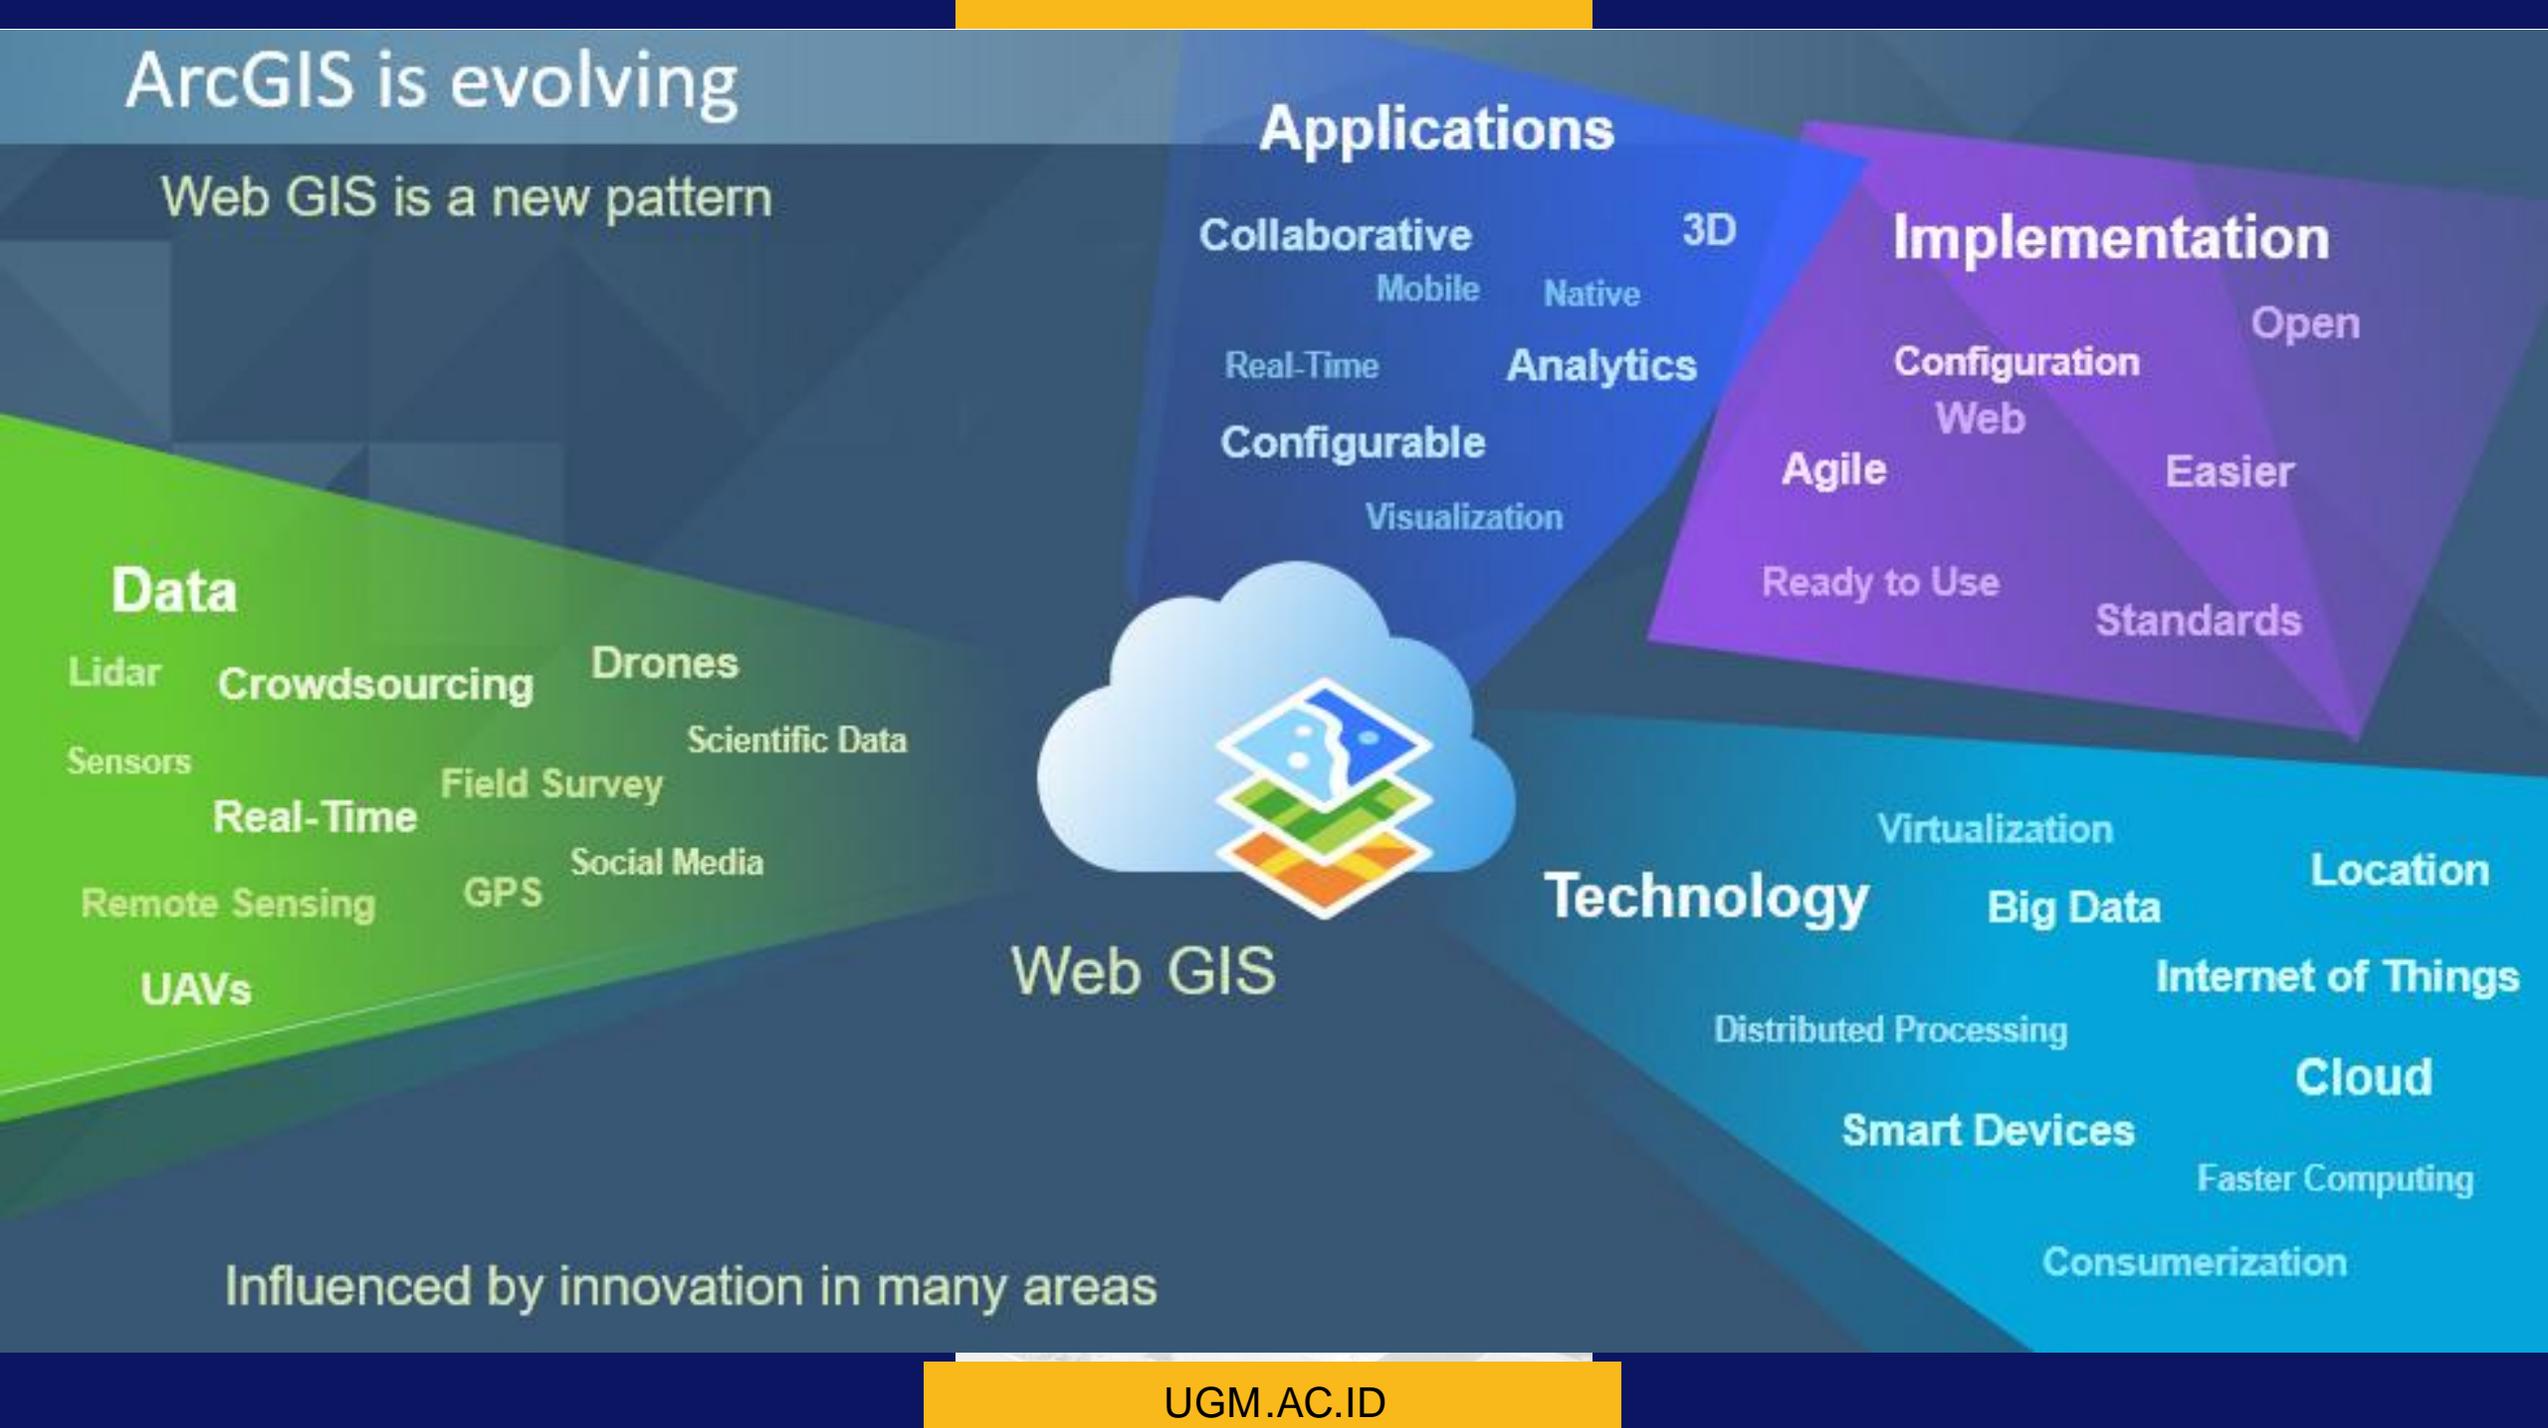

Ekosistem GIS turut berubah dengan tersedianya infrastruktur **komputasi awan** (*cloud-computing*)

Berbagai perangkat untuk pengumpulan data, analisis dan visualisasi data spasial kini berpusat pada **perangkat, layanan dan infrastruktur berbasis awan**

ArcGIS is evolving

Web GIS is a new pattern

Influenced by innovation in many areas

GIS Apps

Included as Part of
Online, Server, and Desktop

ArcGIS App Studio

App Studio dapat digunakan untuk memuat aplikasi multiplatform dengan cepat

App Studio terintegrasi dengan ArcGIS Online: developer hanya perlu mendesain antarmuka aplikasi dan memanggil data dari Portal ArcGIS Online yang terhubung

ArcGIS WebApp Builder

Home ▾ Web AppBuilder for ArcGIS Hawaii Island Lava Flow Hazard Zones

Dashboard theme

The screenshot shows the ArcGIS WebApp Builder interface for a dashboard theme. The top navigation bar includes "Home", "Web AppBuilder for ArcGIS", and the title "Hawaii Island Lava Flow Hazard Zones". The "Dashboard theme" is selected. The interface is divided into several panels:

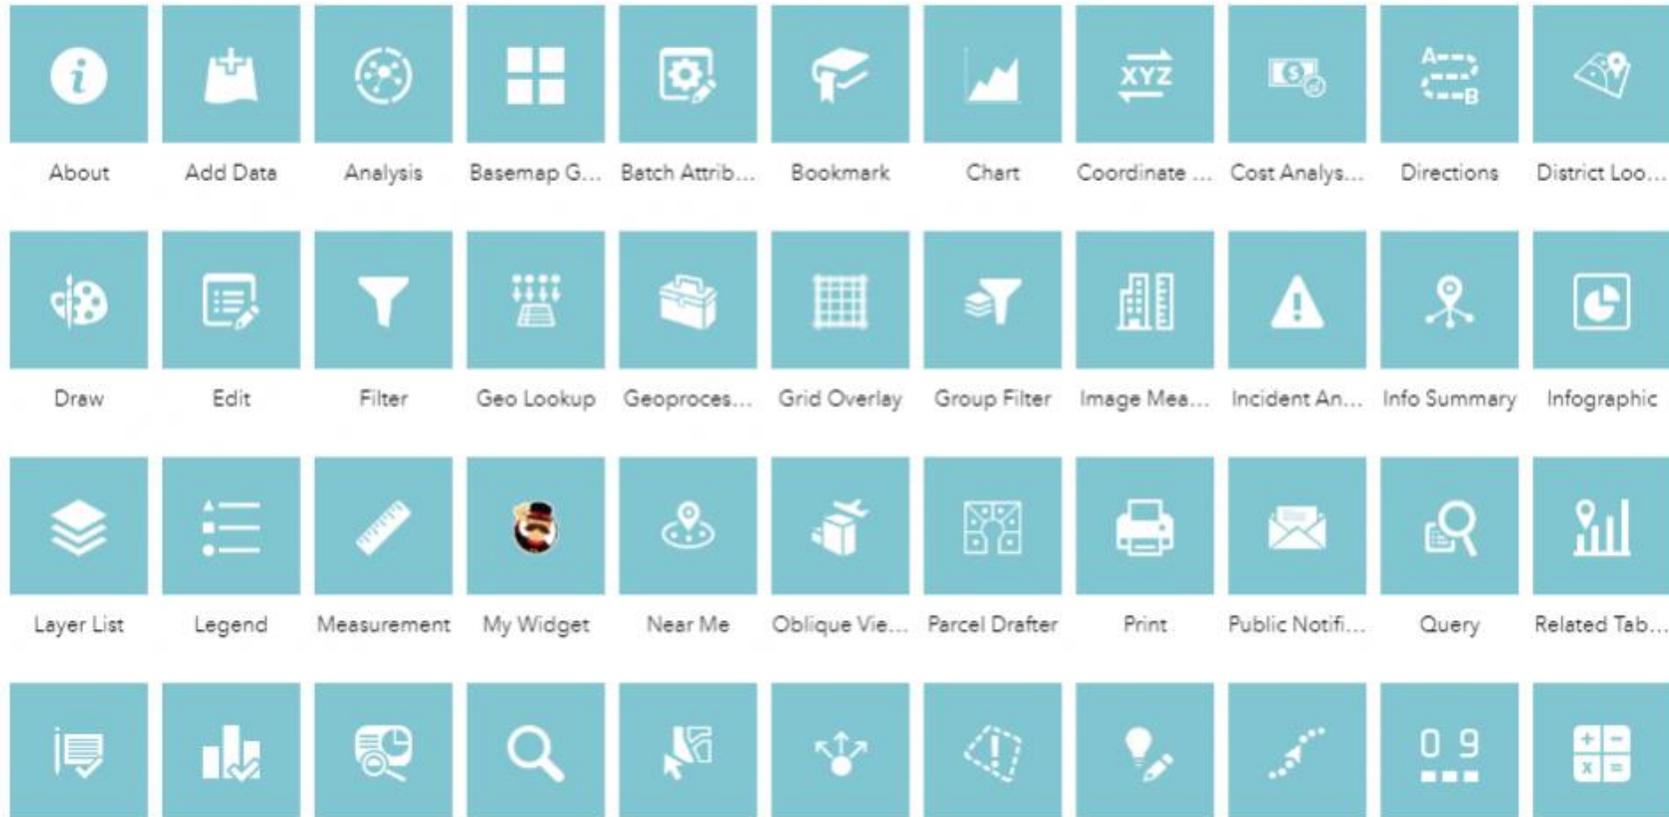

- Left Sidebar:** Contains widget categories: Theme, Map, Widget, and Attribute. The "Widget" category is selected, showing a grid of widgets like Attribute Table, Coordinate, Extent Navigation, Full Screen, Header, Home, My Location, Overview, Scalebar, Search, Splash, Zoom Slider, Analysis, Basemap, Grid Overlay, Summary, and Swipe. A "Placeholder" section is also visible.
- Top Navigation:** Includes "Theme", "Map", "Widget", "Attribute", and a "Modify layout" button.
- Central Map Area:** Displays a map of Hawaii Island with hazard zones. A search bar is at the top right. A red box highlights the "On-screen widgets" (a toolbar with icons for home, back, forward, and refresh) and "Off-panel widgets" (a search bar and a scale bar).
- Draw Panel:** Allows users to select a draw mode (point, line, polygon, etc.) and search for an address or locate on the map. It includes a search bar and a "Show results within 5 Miles" slider.
- Legend Panel:** Lists layers: Emergency Shelters, Volcanoes, and Highways. It includes a "Select" button and a "Clear" button.
- Print Panel:** Includes a "Layout" dropdown (set to MAP_ONLY) and a "Format" dropdown (set to PDF). It also has "Advanced" and "Print" buttons.

At the bottom, there are "Launch", "Previews", and "Save" buttons.

ArcGIS WebApp Builder

Choose Widget

Type widget name to search

WebApp Builder memiliki sejumlah besar Widget siap pakai yang dapat dipasang pada sebuah WebApp yang dibangun

Tiap Widget memiliki pengaturan yang berbeda. Beberapa widget dapat digunakan secara bersamaan pada sebuah **template WebApp**

ArcGIS Living Atlas

ArcGIS Living Atlas of the World is the foremost collection of geographic information from around the globe. It includes maps, apps, and data layers to support your work.

What's new

Explore items recently added to ArcGIS Living Atlas of the World, learn about GIS events, and discover ways to use content.

Esri is monitoring global activity of the coronavirus disease 2019 (COVID-19) and supporting resources for community preparedness. [View the COVID-19 GIS Hub](#)

Latihan 1: Manajemen Data pada ArcGIS Notebook

Latihan ini bertujuan untuk memberikan pemahaman dasar mengenai penggunaan ArcGIS API for Python untuk mengakses data melalui ArcGIS Notebook

Melakukan Inisiasi pada modul GIS dari ArcGIS API

```
In [1]: from arcgis.gis import GIS
#gis = GIS("home") # Jika akan login sebagai pengguna saat ini (di Portal Learn ArcGIS)
```

Menampilkan Bantuan dengan menggunakan tanda ? di akhir sebuah perintah

```
In [3]: gis?
```

Memanggil pengguna pada portal

```
In [6]: user = gis_sigi.users.get('Admin_BPII')
```
